# Funding changes – wealth depletion Admission into the home assumes that selffunding residents are able to fund their care for

outstanding breach of contract.

If circumstances change during the first 2 years in the home and you can no longer afford the private fees, you or your family may be asked to pay a top-up to any local authority funding you are entitled to receive at that time.

If you are unable to afford the top-up, we will do all we can to continue to accommodate you in the home, but we can only guarantee continued residency if the funding meets our fee levels.

Alternatively, we may end your residency with us

or require you to move to a less expensive room

To cover inflation and other predictable cost increases, your fees will increase in April each year. Where the date of admission is between 1st January and 31st March in any year the fees will not be increased on 1st April that year, but will instead be reviewed after 6 months and thereafter on 1st April each year.

The only other increases payable will be if, upon
